Pesseract Detailed Installation Instructions

If you go step-by-step you probably don't need these instructions. If something goes wrong, then these instructions will be helpful.

Microsoft.Net Framework (Windows 10)

It is important to get the CORRECT Microsoft.Net Framework 4.6.2 files. This is the correct URL for Windows 10:

https://download.microsoft.com/download/E/F/D/EFD52638-B804-4865-BB57-47F4B9C80269/NDP462-DevPack-KB3151934-ENU.exe

After you install the Microsoft.Net Framework 4.6.2 files correctly, if you go to *Control Panel* and go under *Programs and Features*, you should see this:
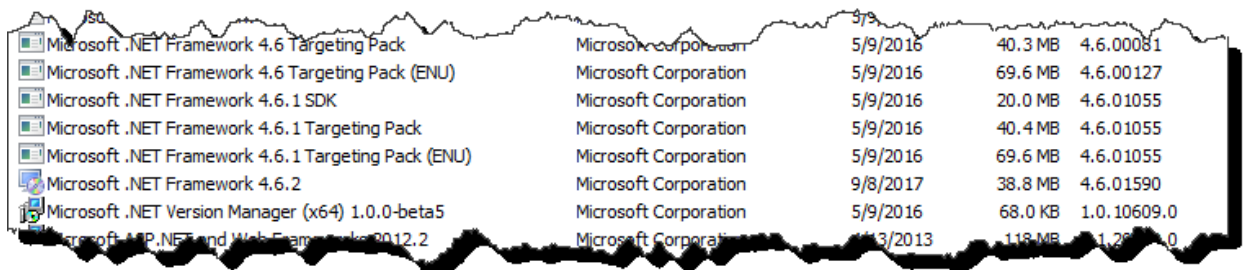

Malwarebytes Version 3.2.2.20	Malwarebytes		MB	
McAfee WebAdvisor	McAfee, Inc.	10/25/2017	20.9 MB	4.0.161
Microsoft .NET Framework 4.6.2 SDK	Microsoft Corporation	11/2/2017	20.2 MB	4.6.01590
Microsoft .NET Framework 4.6.2 Targeting Pack	Microsoft Corporation	11/2/2017	40.4 MB	4.6.01590
Microsoft .NET Framework 4.6.2 Targeting Pack (ENU)	Microsoft Corporation	11/2/2017	66.5 MB	4.6.01590
Microsoft Access 2010	Microsoft Corporation	10/25/2017	32.3 MB	14.0.7015.1000
Microsoft Office Home and Business 2010	Microsoft Corporation	10/25/2017	32.3 MB	14.0.7015.1000

BE SURE to install the Microsoft.Net Framework 4.6.2 BEFORE in install the Pesseract application.

Microsoft.Net Framework (Windows 7 or Windows 8)

It is important to get the CORRECT Microsoft.Net Framework 4.6.2 files. This is the correct URL for Windows 7 or Windows 8:

https://www.microsoft.com/en-us/download/details.aspx?id=53345

|				
Microsoft .NET Framework 4.6 Targeting Pack	Microsoft Corporation	5/9/2016	40.3 MB	4.6.00081
Microsoft .NET Framework 4.6 Targeting Pack (ENU)	Microsoft Corporation	5/9/2016	69.6 MB	4.6.00127
Microsoft .NET Framework 4.6.1 SDK	Microsoft Corporation	5/9/2016	20.0 MB	4.6.01055
Microsoft .NET Framework 4.6.1 Targeting Pack	Microsoft Corporation	5/9/2016	40.4 MB	4.6.01055
Microsoft .NET Framework 4.6.1 Targeting Pack (ENU)	Microsoft Corporation	5/9/2016	69.6 MB	4.6.01055
Microsoft .NET Framework 4.6.2	Microsoft Corporation	9/8/2017	38.8 MB	4.6.01590
Microsoft .NET Version Manager (x64) 1.0.0-beta5	Microsoft Corporation	5/9/2016	68.0 KB	1.0.10609.0
Microsoft ASP.NET and Web Frameworks 2012.2	Microsoft Corporation	1/13/2013	118 MB	

Reinstalling over an existing build

If you already have installed Pesseract, you MUST uninstall the prior version before installing a new version.

License file

You must manually put the license file into the Pesseract application subdirectory. The license file has a name something like "Pesseract Trial12312019.license". Put that file into the following subdirectory unless you installed the software somewhere else; then put it there:

C:\Program Files (x86)\DigitalFinancialReporting\Pesseract\DFRCreator
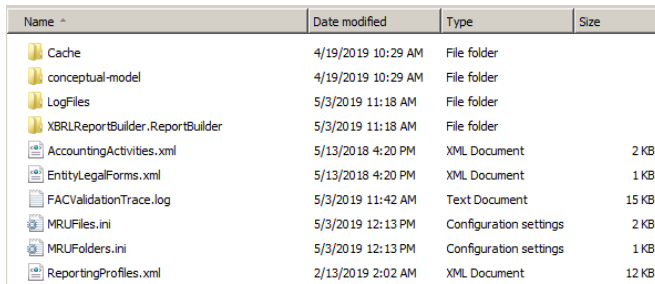

It looks like this:

How to delete the existing cache files if instructed to do so

If instructed to do so, this is how you delete all the existing cache files. Go to this subdirectory:

C:\Users\{YOUR USER NAME}\AppData\Roaming\DFR\Pesseract

It looks like this:

Delete all of the contents of that subdirectory.

Problems?

If you have any problems, please contact Charles.Hoffman@me.com and we will help you get Pesseract up and running.
